Engineer

HNTB Corporation
340 County Road, Suite C
Westbrook, Maine 04092

Start/Finish

February 2016—November 2017

Project Value

\$4.5 Million

Description/Significance

Sargent crews are working on a project to upgrade the toll systems at three Maine Turnpike interchanges.

The project includes:

- Two new on-ramp lanes
- Upgrading the cash toll systems at all three interchanges
- Installation of tolling equipment in the utility buildings, canopy, toll booth pits and islands
- Widening the northbound ramp at Interchange 32
- Installation of signing and traffic control devices

The project will require:

- 2,000 tons of pavement
- 750 cubic yards of structural concrete
- 23 tons of fiberglass rebar
- 3,000 tons of base and subbase
